OUR HISTORY:

Beginning in the late 70's, Ron Ochs and his family hosted fly-ins at their ranch every year. Friends and neighbors either flew in or drove their fancy show cars to this popular event. This event grew to a level where a larger venue was eventually needed. Along with their friend, Don Mobley, an experienced pilot and airshow boss, they began building the first Airshow of the Cascades held at the Madras airport.

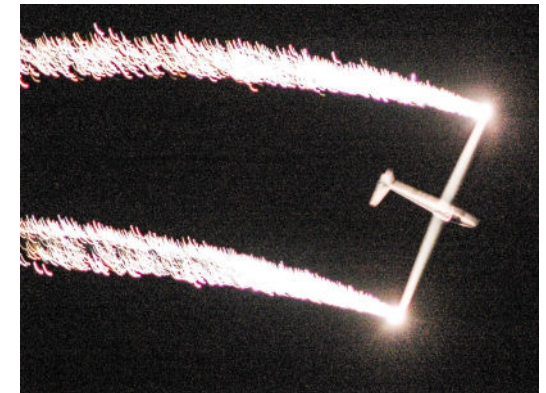

Thank you Ochs Family, Don Mobley, and everyone who were there from the beginning. We appreciate your legacy and will strive to keep it soaring!
